

The York Township Parks and Recreation Committee needs some volunteer help. The Committee is looking for individuals, especially retirees who enjoy working outdoors to help with some local park projects this summer.

Various projects will be undertaken in both Sandra Richardson and Mary McCann Parks. These projects involve some carpentry skill, trail improvements, brush clearing, controlled burns, tree transplanting, painting and other manual jobs. These projects are usually undertaken as a group effort either on week days or weekends.

In McCann Park, John Farmer is looking for some help in several projects to continue developing the "Environmental Education and Passive Recreation Area". McCann Park is located on Warner Rd. between Willis and Bemis.

This is a great way for retirees to get out and do something for the community. Maintaining and improving our township parks is a nice way to meet new people as well as for the beneficial exercise.

If interested, leave your name at the Township Office or call / email Chairman Frank Stukenborg at 429-2980. Email= [fxstuken@aol.com](mailto:fxstuken@aol.com)
